## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records does not teach a monitor for displaying the image of the object, the monitor having a memory for storing the image of the object that the image capturing device captures when the projector does not project the pattern light on the region, wherein the image capturing device captures a projection pattern formed on the object by the pattern light, and wherein, when the image capturing device captures the image of the object with the pattern light projected by the projector on the region, the monitor displays the image of the object captured without the pattern light and stored in the memory instead of the image of the object the image capturing device captures with the projector projecting the pattern light on the region so that the image of the object without the pattern can be observed although the object is being lightened by the pattern light in combination with other, see page 55, lines 8-11; and steps U17, U18, U21, U23, and U24 of fig. 20 of the specification of the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
